

Subject Index

- Address, presidential, 265
- Alveoli, bronchioles and, cytology of hyperplastic and neoplastic lesions of terminal, 372
- Amenorrhea treated by transcerebral electrostimulation, colpocytologic studies in, 347
- Amniotic fluid, exfoliative cytology of, 442
- Aspiration: biopsy of salivary gland tumors. II. Morphologic studies on smears and histologic sections from oncocyctic tumors (45 cases of papillary cystadenoma lymphomatosum and 4 cases of oncocytoma), 355
- esophageal-gastric, for collecting swallowed sputum in diagnostic pulmonary cytology, technique of, 362
- Atypical cells in peripheral blood, 257
- Autoradiographic study on tumor cells, 234
- Benign oral lesions, the cytology of, 287
- "Biologic term," a critical evaluation of the value of vaginal cytology for the determination of, 340
- Biopsy technique, control, analysis of oral exfoliative cytologic accuracy by, 351
- Blood: cadaver, comparison of techniques for cancer cell detection in the peripheral blood using, 100
- cancer cells in the, clinical aspects of, 175
- cells, unusual, diagnosis of, by immunofluorescence, 73
- circulating: cancer cells in; a comparison with cytologic criteria for other sites, 83
- cancer cells in the; a critical review II, 6
- criteria for the recognition of malignant cells in, 58
- symposium on tumor cells in the, *see* Symposium on tumor cells in the circulating blood
- tumor cells in—prospice, 185
- clumps, circulating, endothelial cells and; differential diagnosis, 68
- isolation of tumor cells from the; approaches to technique comparison, 123
- and organs of experimental animals, a method for determining the presence of tumor cells in, and its application to the problems of metastases and retention in organs; a review, 160
- peripheral: atypical cells in, 257
- cancer cell detection in: I. Comparison of techniques using cadaver blood, 100
- II. Comparison of techniques using seeded specimens, 111
- cancer cells in the; a second look, 169
- and spinal fluid of mice with developing tumors, cellular studies of, 298
- a study of normal, atypical and neoplastic cells in the white cell concentrate of the, 61
- specimen preparation, problems in techniques used in, 97
- tumor cell isolation from, a comparative experimental study of techniques for, 134
- tumor cells in the, experimental model for the study of, 141
- Bronchial metaplasia: observations on its histology and cytology, 365
- Bronchioles and alveoli, cytology of hyperplastic and neoplastic lesions of terminal, 372
- Bronchogenic carcinoma, cytologic patterns of developing, 424
- Cadaver blood, comparison of techniques for cancer cell detection in the peripheral blood using, 100
- Cancer: Cell: Circulating, Cooperative (CCCC): analysis of the color micrograph study of the, 50
- slide seminar, 21
- detection in the peripheral blood: I. comparison of techniques using cadaver blood, 100
- II. Comparison of techniques using seeded specimens, 111
- cells: in the blood, clinical aspects of, 175
- in circulating blood: a comparison with cytologic criteria for other sites, 83
- a critical review II, 6
- in the peripheral blood: a second look, 169
- detection by cervical scrapings, vaginal pool smears and irrigation smears; a comparative study, 189
- of the lung; the cytology of sputum prior to the development of carcinoma, 413
- of the oral cavity, an investigation of 890 patients with; its incidence, etiology, prognosis and relationship to oral exfoliative cytology, 273
- screening program, the use of colposcopy in a, 395
- uterine, is there a place for the colposcope in an established cytologic screening program for? 391
- Cancerous nodes, cannulation of lymphatics leaving, in studies on tumor spread, 197
- Cancers, small peripheral lung, some limitations of cytologic diagnosis of, 431
- Cannulation of lymphatics leaving cancerous nodes in studies on tumor spread, 197
- Carcinogenesis, experimental, in pregnant mice; a preliminary report, 386
- Carcinoma: bronchogenic, cytologic patterns of developing, 424
- epidermoid, normal oral mucosa and, lactic dehydrogenase activity in cytologic smears of, 437
- of the lung, the cytology of sputum prior to the development of, 413
- of the oral cavity, cytology in the radiotherapy of, 296
- in situ, definition of, 402
- CCCC: analysis of the color micrograph study of the, 50
- slide seminar, 21
- Cervical: dysplasias during pregnancy and post

- Cervical—Continued**
 partum, desorption technic in differential diagnosis of, 213
 scrapings, vaginal pool smears and irrigation smears, cancer detection by; A comparative study, 189
 smears, lymph follicles in, 344
 Cervico-vaginal cytology in the teenage patient, 314
 Cervix, mouse uterine, effect of ovariectomy on 20-methylcholanthrene induced dysplasia of the, 446
 Chromatin, sex: fluctuations of the, during the menstrual cycle, 251
 incidence and menstrual cycle, absence of correlation between, 440
 Circulating Cancer Cell Cooperative (CCCC): analysis of the color micrograph study of the, 50
 slide seminar, 21
 Clinical aspects of cancer cells in the blood, 175
 Clumps, circulating-blood, endothelial cells and; differential diagnosis, 68
 Colitis, ulcerative, preliminary cytochemical studies of mucosal surface cells in, 239
 Color micrograph study of the Circulating Cancer Cell Cooperative (CCCC), analysis of the, 50
 Cooperative, the Circulating Cancer Cell (CCCC): analysis of the color micrograph study of the, 50
 slide seminar, 21
 Colpocytologic studies in amenorrhea treated by transcerebral electrostimulation, 347
 Colpocytology, hormonal, use of the irrigation smear in, 307
 Colposcope, is there a place for the, in an established cytologic screening program for uterine cancer? 391
 Colposcopy: 393
 the use of, in a cancer screening program, 395
 Computer analysis of cytophotometric fields by CYDAC and its historical evolution from the cytoanalyzer, 203
 Control biopsy technique, analysis of oral exfoliative cytologic accuracy by, 351
 CYDAC, computer analysis of cytophotometric fields by, and its historical evolution from the cytoanalyzer, 203
 (Cystadenoma lymphomatosum, 45 cases of papillary, and 4 cases of oncocytoma), morphologic studies on smears and histologic sections from oncocytic tumors, 355
 Cytoanalyzer, computer analysis of cytophotometric fields by CYDAC and its historical evolution from the, 203
 Cytochemical studies, preliminary, of mucosal surface cells in ulcerative colitis, 239
 Cyodiagnosis of effusions by desorption technic, 380
 Cytohormonal findings, computed, in 3,307 healthy women, 328
 Cytology programs, quality control mechanism for (editorial), 407
 Cytophotometric fields, computer analysis of, by CYDAC and its historical evolution from the cytoanalyzer, 203
 Delivery, vaginal cytology during, 337
 Desorption technic: cyodiagnosis of effusions by the, 380
 in differential diagnosis of cervical dysplasias during pregnancy and post partum, 213
 Dysplasia of the mouse uterine cervix, 20-methylcholanthrene induced, effect of ovariectomy on, 446
 Dysplasias, cervical, during pregnancy and post partum, desorption technic in differential diagnosis of, 213
 Editorial: quality control mechanism for cytology programs, 407
 who should take the cytologic specimens? 335
 Effusions: cyodiagnosis of, by the desorption technic, 380
 serous, diagnosis of, 401
 Electrostimulation, transcerebral, colpocytologic studies in amenorrhea treated by, 347
 Endocrine smears, vaginal, terminology of, 396
 Endometriosis, the vaginal smear pattern in cases of, 247
 Endothelial cells and circulating-blood clumps; differential diagnosis, 68
 Epidermoid carcinoma, normal oral mucosa and, lactic dehydrogenase activity in cytologic smears of, 437
 Esophageal-gastric aspiration for collecting swallowed sputum in diagnostic pulmonary cytology, 362
 Estrogen, continued, throughout menopause, 400
 Estrous cycles of rodents, effect of environmental illumination on, 221
 Fluid, amniotic, exfoliative cytology of, 442
 Follicles, lymph, in cervical smears, 344
 Gastric aspiration, esophageal-, for collecting swallowed sputum in diagnostic pulmonary cytology, technique of, 362
 Hepatic metastases from circulating tumor cells, experimental study of factors influencing development of, 146
 Histology and cytology of bronchial metaplasia, observations on, 365
 Historical background of oral cytology, 270
 Hormonal: colpocytology, use of the irrigation smear in, 307
 findings, computed cyto-, in 3,307 healthy women, 328
 Hyperplastic and neoplastic lesions of terminal bronchioles and alveoli, cytology of, 372
 Illumination, environmental, effect of, on estrous cycles of rodents, 221
 Immunofluorescence, diagnosis of unusual blood cells by, 73
 Irrigation: smear; use in hormonal colpocytology, 307
 smears, cancer detection by cervical scrapings, vaginal pool smears and; a comparative study, 189

- Lactic dehydrogenase activity in cytologic smears of normal oral mucosa and epidermoid carcinoma, a preliminary report, 437
- Leptothrix, the presence of, in vaginal smears, 244
- Letters to the editors: 391
- colposcopy, 393
- continued estrogen throughout menopause, 400
- definition of carcinoma in situ, 402
- diagnosis of serous effusions, 401
- is there a place for the colposcope in an established cytologic screening program for uterine cancer? 391
- terminology of vaginal endocrine smears, 396
- the use of colposcopy in a cancer screening program, 395
- Lung: cancer of: the cytology of sputum prior to the development of carcinoma, 413
- cancers, small peripheral, some limitations of cytologic diagnosis of, 431
- Lymph follicles in cervical smears, 344
- Lymphatics, cannulation of, leaving cancerous nodes in studies on tumor spread, 197
- Lymphoma, malignant renal, primary cytologic diagnosis of a, 194
- Malignant: cells: circulating, a quantitative comparison of processing techniques for study of, 116
- in circulating blood criteria for the recognition of, 58
- from mouth lesions, morphological characteristics of, 282
- pleural mesothelioma, cytologic diagnosis of, 207
- renal lymphoma, primary cytologic diagnosis of a, 194
- Menopause, continued estrogen throughout, 400
- Menstrual cycle: fluctuations of the sex chromatin during the, 251
- sex chromatin incidence and, absence of correlation between, 440
- Mesothelioma, malignant pleural, cytologic diagnosis of, 207
- Metaplasia, bronchial; observations on its histology and cytology, 365
- Metastases: hepatic, from circulating tumor cells, experimental study of factors influencing development of, 146
- and retention in organs, a method for determining the presence of tumor cells in blood and organs of experimental animals and its application to the problems of, 160
- 20-Methylcholanthrene induced dysplasia of the mouse uterine cervix, effect of ovariectomy on, 446
- Micrograph study, color, of the Circulating Cancer Cell Cooperative (CCCC), analysis of the, 50
- Microscopy, phase contrast, refractometry of exfoliated cells by, 304
- Mouth lesions, malignant cells from, morphological characteristics of, 282
- Mucosa, normal oral, and epidermoid carcinoma, lactic dehydrogenase activity in cytologic smears of, 437
- Mucosal surface cells in ulcerative colitis, preliminary cytochemical studies of, 239
- Neoplastic: cells, normal, atypical and, in the white cell concentrate of the peripheral blood, a study of, 61
- lesions, hyperplastic and, of terminal bronchioles and alveoli, cytology of, 372
- Nodes, cancerous, cannulation of lymphatics leaving in studies on tumor spread, 197
- Oncocytic tumors, morphologic studies on smears and histologic sections from, (45 cases of papillary cystadenoma lymphomatosum and 4 cases of oncocytoma), 355
- (Oncocytoma, 4 cases of, 45 cases of papillary cystadenoma lymphomatosum and), morphologic studies on smears and histologic sections from oncocytic tumors, 355
- Oral: cavity: carcinoma of the, cytology in the radiotherapy of, 296
- cytology: the historical background of, 270
- an investigation of 890 patients with cancer of the; its incidence, etiology, prognosis and relationship to oral exfoliative cytology, 273
- (panel), 269
- exfoliative cytologic accuracy, analysis of, by control biopsy technique, 351
- exfoliative cytology of tropical sprue, 228
- mucosa, normal, and epidermoid carcinoma, lactic dehydrogenase activity in, 437
- lesions, benign, the cytology of, 287
- Organs, blood and, of experimental animals, a method for determining the presence of tumor cells in, and its application to the problems of metastases and retention in organs; a review, 160
- Ovarian disease, polycystic, vaginal cytology in, 322
- Ovariectomy, effect of, on 20-methylcholanthrene induced dysplasia of the mouse uterine cervix, 446
- Ovum, the presence of a human, in a vaginal smear, report of a case, 317
- Papanicolaou smears, results of routine, in two venereal disease clinics in New York City, 319
- (Papillary cystadenoma lymphomatosum, 45 cases of, and 4 cases of oncocytoma), morphologic studies on smears and histologic sections from oncocytic tumors, 355
- Phase contrast microscopy, refractometry of exfoliated cells by, 304
- Pleural mesothelioma, malignant, cytologic diagnosis of, 207
- Polycystic ovarian disease, vaginal cytology in, 322
- Post partum, pregnancy and, desorption technic in differential diagnosis of cervical dysplasias during, 213
- Pregnancy and post partum, desorption technic in differential diagnosis of cervical dysplasias during, 213
- Pregnant mice, experimental carcinogenesis in; a preliminary report, 386

- Presidential address, 265
- Processing techniques for study of circulating malignant cells, a quantitative comparison of, 116
- Pulmonary cytology, diagnostic, technique of esophageal-gastric aspiration for collecting swallowed sputum in, 362
- Quality control mechanism for cytology programs (editorial), 407
- Radiotherapy of carcinoma of the oral cavity, cytology in the, 296
- Refractometry of exfoliated cells by phase contrast microscopy, 304
- Renal lymphoma, malignant, primary cytologic diagnosis of a, 194
- Retention, metastases and, in organs, a method for determining the presence of tumor cells in blood and organs of experimental animals and its application to the problems of, 160
- Salivary gland tumors, aspiration biopsy of. II. Morphologic studies on smears and histologic sections from oncocytic tumors (45 cases of papillary cystadenoma lymphomatousum and 4 cases of oncocytoma), 355
- Scrapings, cervical, vaginal pool smears and irrigation smears, cancer detection by; comparative study, 189
- Screening program: cancer, the use of colposcopy in a, 395
- for uterine cancer, is there a place for the colposcope in an established cytologic? 391
- Seeded specimens, comparison of techniques for cancer cell detection in the peripheral blood using, 111
- Seminar, slide, the Circulating Cancer Cell Cooperative, 21
- Serous effusions, diagnosis of, 401
- Sex chromatin: fluctuations of the, during the menstrual cycle, 251
- incidence and menstrual cycle, absence of correlation between, 440
- Slide seminar, the Circulating Cancer Cell Cooperative, 21
- Smear: the irrigation; use in hormonal colpocytology, 307
- pattern, the vaginal, in cases of endometriosis, 247
- vaginal, the presence of a human ovum in a, report of a case, 317
- Smears: cervical, lymph follicles in, 344
- cytologic, of normal oral mucosa and epidermoid carcinoma, lactic dehydrogenase activity in 437
- irrigation, vaginal pool smears, cervical scrapings and, cancer detection by; a comparative study, 189
- Papanicolaou, results of routine, in two venereal disease clinics in New York city, 319
- vaginal: pool, irrigation smears, cervical scrapings and, cancer detection by; a comparative study, 189
- endocrine, terminology of, 396
- the presence of leptothrix in, 244
- Specimen preparation, blood, problems in techniques used in, 97
- Specimens: cytologic, who should take the? (editorial), 335
- seeded, comparison of techniques for cancer cell detection in the peripheral blood using, 111
- Spinal fluid, peripheral blood and, of mice with developing tumors, cellular studies of, 298
- Sprue, tropical, the oral exfoliative cytology of, 228
- Sputum: the cytology of, prior to the development of carcinoma of the lung, 413
- swallowed, technique of esophageal-gastric aspiration for collecting, in diagnostic pulmonary cytology, 362
- Surface cells, mucosal, in ulcerative colitis, preliminary cytochemical studies of, 239
- Symposium on tumor cells in the circulating blood: introduction, 4
- Part I, 3-93
- Part II, 97-188
- prefatory remarks, 3
- Teenage patient, cervico-vaginal cytology in the, 314
- "Term, biologic," a critical evaluation of the value of vaginal cytology for the determination of, 340
- Tropical sprue, the oral exfoliative cytology of, 228
- Tumor: cell isolation from blood, a comparative experimental study of technics for, 134
- cells: an autoradiographic study on, 234
- in the blood: experimental model for the study of, 141
- and organs of experimental animals, a method for determining the presence of, and its application to the problems of metastases and retention in organs; a review, 160
- in the circulating blood, symposium on, *see* Symposium on tumor cells on the circulating blood.
- circulating: the fate of, 136
- hepatic metastases from, experimental study of factors influencing development of, 146
- isolation of, from the blood; approaches to technique comparison, 123
- spread, cannulation of lymphatics leaving cancerous nodes in studies on, 197
- Tumors: developing, cellular studies of peripheral blood and spinal fluid of mice with, 298
- oncocytic, morphologic studies on smears and histologic sections from, (45 cases of papillary cystadenoma lymphomatousum and 4 cases of oncocytoma), 355
- salivary gland, aspiration biopsy of. II. Morphologic studies on smears and histologic sections from oncocytic tumors (45 cases of papillary cystadenoma lymphomatousum and 4 cases of oncocytoma), 355
- Ulcerative colitis, preliminary cytochemical studies of mucosal surface cells in, 239
- Uterine: cancer, is there a place for the colposcope in an established cytologic screening program for? 391
- cervix, mouse, effect of ovariectomy on 20-methylcholanthrene induced dysplasia of, 446

- Vaginal: cytology: cervico-, in the teenage patient, 314
a critical evaluation of the value of, for the determination of "biologic term", 340
during delivery, 337
in polycystic ovarian disease, 322
endocrine smears, terminology of, 396
pool smears, cervical scrapings and irrigation smears, cancer detection by; a comparative study, 189
smear: pattern in cases of endometriosis, 247
the presence of a human ovum in a, report of a case, 317
smears, the presence of leptothrix in, 244
Venereal disease clinics, results of routine Papanicolaou smears in two, in New York City, 319
White cell concentrate of the peripheral blood, a study of normal, atypical and neoplastic cells in the, 61
Women, computed cytohormonal findings in 3,307 healthy, 328
